

Rockwell Parts

Rockwell Parts - The business of AxleTech International is a large supplier of specialty vehicle drive-train systems and parts together with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to exceed and meet their customers' expectations for technology, delivery, quality and service. They believe in working within an environment which supports the utmost integrity with empowered collaboration, together with a relentless pursuit of results.

AxleTech International is a General Dynamics company. They believe strongly in actively utilizing principals of ecological safety and stewardship in how they do business. The business has put different programs in place to be able to articulate these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with any comments or questions, as they are happy to promote and share this policy with a greater understanding of their efforts. They are very devoted to preserving and improving the natural environment. AxleTech has an EHS program which not just protects the natural world but which even actively protects their neighbors and staff too.

AxleTech specializes in the designing and manufacture of planetary axles for both military and commercial applications, which could include anything from construction equipment to airport ground support. They take great pride in being a ground-breaking drive-train solutions provider also. AxleTech particularly designs axles to meet specific application demands. They have more than one thousand different axle specs in their current offering. With over 100+ years of knowledge and history, AxleTech proudly supplies the most complete solution for whichever of your axle requirements. The business is well known in many commercial and military applications. They offer complete axle assemblies utilized for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have added details that could be seen in the "ISAS" product collection.
