

Clark Forklift Parts

Clark Forklift Parts - Performing globally, there are now 350,000 Clark forklifts and lift trucks in operation, with more than 250,000 of those operating in North America. Clark has five major lines of forklifts across the world, making it one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 distinctive brands of lift trucks, with components covering more than 120,000 specific parts for all of its automated equipment. Your local Clark Seller is your complete source for availability of all your parts needs offered by Clark Totalift.

Clark's phenomenal Parts Distribution Facilities are conveniently situated in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to offer the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a really impressive global support network. With over 550 locations globally, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the material handling industry.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering safety features such as the operator restraint system. This exceptional commitment to safety is currently a customary feature on every forklift.

Clark has a relentless objective to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its production facilities. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental restrictions, thus placing them in a prevailing market position.

Clark has chosen the very economical and advantageous system of "Lean Production" for its assembly plants and application of resources. This system was developed to acknowledge the most effective approaches of manufacturing facility management and ensuring maximum efficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to upgrade the proficiency and brilliance of their merchandise while minimizing expenses. The new value engineering agenda combines progressive product growth and delivers superior client support and service within the industry.
