

Forklift Spreader Bars

Forklift Spreader Bars - Proudly operating ever since 1974, ELME Spreader AB is the largest independent spreader company around the globe. They have been a devoted producer of spreaders used for various applications such as the swap bodies, trailers and handling of containers.

ELME currently has over 125 employees with all engineering is done in-house by means of making use of all of the most up-to-date CAD systems and FEM tools. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside all-over the globe.

The ELME product series offers spreaders intended for different container and trailer handling operations. Several of their inventory comprise: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers and a wide range of attachments.

Manufacturing and production of ELME products are established in highly automated purpose designed factory. In the year 2008, they created 1150 spreaders by means of making use of quality components to be able to guarantee dependability and excellent standards. Major features of ELME comprise design simplicity, market response and ground-breaking modular spreader concept.
